NZ Farming Systems Uruguay (NZS) welcomes new shareholder

NZ Farming Systems chairman Keith Smith welcomed the news that Singapore-based leading international food company Olam International has purchased a 14.35 percent stake in NZ Farming Systems Uruguay, from existing shareholders.

“We believe that the addition of Olam International as a substantial shareholder is very positive for the company. With its growing dairy business, and its global sales and marketing footprint, Olam brings real strengths to our shareholder register,” said Mr Smith.
